2 Introduction

This report has been prepared to show the results of a survey conducted into Alert Box (a system used in Yiewsley High Street to enable shops within 100m to contact each other when help is required or information needs to be passed on). The survey comprised of a number of questions from a base of 52 respondents. In some cases, responses fell in to more than one category hence the fact that the totals do not always add up to 52.

Due to the time constraints of the request, it has not been possible to provide full analysis and is merely a visual representation of the survey results rather than a problem profile.

2.1 Protective Marking

This report is marked UNRESTRICTED. See [Protective Marking System](#) for reasons, handling and destruction instructions.

3 Findings

3.1 Q1 Have you had to use the Alert box?

The above chart indicates that the majority of respondents have used the Alert box (n=36).

3.2 Q2 If you have used the Alert box, how many times have you used the functions for

Two options were given for this question – nuisance and emergency.

Of these responses, 10 had used the Alert box for nuisance calls and 13 for emergency calls.

3.3 Q3 Have you heard the Alert box activated

The above chart indicates that the majority of respondents have heard the device activate (n=48).

3.4 Q4 How many times has the Alert box activated

The above graph indicates that the majority of activations from respondents have been in the 0-10 range (n=28).

3.5 Q5 How have you responded to an activation of the Alert box by another business

The above graph indicates that the preferred method on response was that of phone followed by a visit with regard to activations by other businesses (n=35).

3.6 Q6 Please describe how the presence of the Alert box makes you feel

The above chart indicates that the device has been successful in providing reassurance within the commercial community who have had access to the unit (n=42).

3.7 Q7 Would you consider that the presence of the Alert box has changed the level of crime on the High St

The above chart indicates that almost half of the respondents feel that the unit's presence has had a positive effect on crime levels in the High Street (n=26).

3.8 Q8 How do you feel the dynamics of crime levels on the High St have changed?

Based on the above graph, the majority of respondents feel that there has been either no change or a decrease in the dynamics of crime levels in the High Street (n=34).

Appendix

Raw Data

Q1 Have you had to use the Alert box?

Yes / 36

No / 16

Q2 If you have used the Alert box, how many times have you used the functions for

Nuisance / 10

Emergency / 13

Q3 Have you heard the Alert box activated

Yes / 48

No / 4

Q4 How many times has the Alert box activated

0-10 / 28

11-20 / 9
